

See Family and Friends (Africa, Christmas 2018)

It has been a while since last Christmas greetings that you'll see in 2018. That we did not go to the sea, in contrast to the different water, the year will never be repeated 2018 again.

Magpie is still a country and home. It is a good Western language, also because that there is no bad weather, only bad drinking. We grow old gets older and longer the year as two school. Along the other activities as to play things as different school. Magpie is able to interesting things. The father has gone to the outside "light" he can make the strongest things. This led to all things preparing for activities in 2018.

Christmas is a family and the young lady who goes on back of thinking to her again like the Christmas period in 2018, where she has been with some friends and friends. She will forget to be interested. But you also a little girl and along. With the time, it is also important to think as a manager and the conductor of "the day" that is "happy" time because the teacher is also outside friends around the "20" which is a new number with which the a new "family" it is "old" and the "happy" time will be in a go.

There is an idea with a hand-drawn and last year's project to get and through the children. Now the pulled it a little longer and will be the heart of "happy" thinking. The activity is also good for the young children outside to be able to think. Before the year 2018 period thinking, she has gone home that will last working day as a Christmas card by before Christmas Eve.

How many people will be, and it means really about the sea. The children will be outside and get what he is about because it is difficult thinking for first year and children like that it will be better in the area with graduation and activities of primary and other activities with along.

As you see there are facts in everyday life, but also the for some other activities.

January: The parents left the city 2018 and moved to Copenhagen for you to meetings and other jobs in the town. And they will also continue to eat during the month.

February: was playing time and then we also get a nice weekend of light along with dinner and family to celebrate the birthday of Henrik.

March: The school had some activities plus increase the a year of the town.

April: The "old" family for next trip to the sea.

May: The kids in the month Magpie and Henrik's contribution to the school by working with the teacher playing of Christmas and Magpie had talks with events.

June: The arrangements for next month. She was a speaker and represented England in 2018 in Trondheim and Magpie was with with lyrics.

July: Holiday Month is a general weather. We had the very holiday with a week in holidays. Different as some home and left at it or in the sea.

August: 2018 is holiday week and Magpie was in country along with the week.

October: Later again starts and father in the house in about until December 1.

Christmas Eve will be celebrated in the traditional way if it looks with Christmas 1. Christmas Eve will be a quiet day of some arrangements that about the that is about Magpie and the Christmas Eve in Trondheim with some family in about and family.

We wish you all a happy Christmas and a happy New Year.

See and say from Magpie, Henrik's, Uger and Ann Marie
